BRITISH FOUNDATION PROGRAMME

Developing Academic Literacy

Strengthen academic reading, writing, speaking, and listening skills while building confidence for success in a UK higher education environment.

Foundation Mathematics 1

Build core skills in algebra, probability, and statistics while developing logical thinking and practical problem-solving abilities.

Foundation in ICT

Gain essential knowledge of hardware, software, and digital tools, with practical skills for academic and professional use.

Foundation Mathematics 2

Develop understanding of calculus, business mathematics, and statistics through real-world applications and analytical thinking.

Professional Communication Skills

Enhance research, writing, and presentation skills using discipline-specific language and academic conventions.

Self and Organisational Development

Build self-awareness and practical skills to support personal growth and effectiveness in academic and professional settings.

BUSINESS

Contemporary Business in Context

Understand how businesses operate in dynamic markets by analysing economic trends, market data, and external influences.

Principles of Economics

Explore key micro and macroeconomic concepts to understand decision-making by individuals, businesses, and governments.

INFORMATION TECHNOLOGY

Introduction to Software Development

Learn core programming concepts, problem-solving, and the software development lifecycle using practical coding exercises.

Problem Solving for Computing

Develop logical, mathematical, and algorithmic thinking to solve complex computing challenges effectively.

ADMISSION REQUIREMENTS

Join After SSC/ AS/ O Level

BRITISH FOUNDATION PROGRAMME

The programme is carefully designed to develop strong academic foundations, enhance subject-specific knowledge, and strengthen language proficiency. Through a structured and supportive learning environment, students build critical thinking, research, communication, and independent study skills that are essential for higher education. By integrating academic preparation with practical learning approaches, the programme ensures students gain both confidence and competence, enabling a smooth and successful transition into university-level studies.

UNIVERSITY OF LANCASHIRE, UK

The University of Lancashire is a globally recognised institution, ranking in the top 7% of universities worldwide according to the Center for World University Rankings, 2023. With a history that dates back to 1828, it is a leader in modern education and one of the UK's largest universities. The university has a vibrant community of nearly 42,000 staff and students representing over 100 countries.

Additionally, it has established partnerships with 123 institutions worldwide, reinforcing its status as a truly international university.
